Staked /

Staked operates highly reliable and secure staking infrastructure for **30+ PoS protocols** on behalf of the leading crypto asset investors in the industry.

Highly Reliable and Secure
We use Kubernetes to distribute across multiple cloud providers, and have never been slashed, hacked or experienced extended downtime in 2+ years of operation.

Non-Custodial
You are always in complete control of your private keys and funds throughout the staking process.

Flexible Go-To-Market
We operate branded public pools, quantized nodes, co-branded and completely white-labeled nodes.

Broadest Asset Coverage
Live on 20+ PoS mainnets including Polkadot, Keep, Tezos, Cosmos, Celo and Livepeer. Operating on 15+ testnets launching in 2020 including Skale, Cardano, Near, NuCypher and Oasis.

Block-Level Reporting
Designed for fund admins and accountants, the reporting is exportable, and includes all staking and delegation transactions.

Elrond (EGLD)

Token Economics

The EGLD token is a unit of value that is native to the Elrond network. It represents a medium of exchange between users & developers who pay to use the network and validators who take the fees as payment for the services they provide.

Currently, each validator requires 2500 EGLD.

During the first 10 years the maximum possible number of eGLD to be issued for validator rewards is capped at 11,415,927 eGLD. The maximum total supply is 31,415,927 eGLD.

Risks

No slashing enabled yet. Slashing will be enabled in a future phase.

Instructions

Please reach out sales@staked.us to get started with EGLD staking.
